DAVID M. DANKS	R. T. C. PRATT
T. J. DAVID	D. A. PRICE EVANS
J. H. EDWARDS	D. F. ROBERTS
JOHN HAMERTON	D. J. WEATHERALL
D. A. HOPKINSON	R. S. WELLS

EDITOR, *British Medical Journal*

APPOINTED BY THE BRITISH MEDICAL ASSOCIATION

TECHNICAL EDITOR
RITA CARNE

VOLUME 12, 1975

BRITISH MEDICAL ASSOCIATION · TAVISTOCK SQUARE · LONDON WC1H 9JR

CONTENTS

No. 1. *MARCH* 1975

Oesophageal atresia in the South West of England. T. J. DAVID and SARAH E. O'CALLAGHAN 1
A genetic study of torsion dystonia. SARAH BUNDEY, M. J. G. HARRISON, and C. D. MARSDEN 12
Clinical and ultrastructural observations in a kindred with normo-hyperkalaemic periodic paralysis. T. S. DANOWSKI, E. R. FISHER, C. VIDALON, J. W. VESTER, R. THOMPSON, S. NOLAN, T. STEPHAN, and J. H. SUNDER 20
Review article: Reciprocal translocations in man. 3:1 Meiotic disjunction resulting in 47- or 45-chromosome offspring. R. H. LINDENBAUM and M. BOBROW 29
Giemsa banding of chromosome 1qh+ and linkage analysis. PATRICIA N. HOWARD, GAYLE R. STODDARD, MICHAEL W. GODDARD, and J. RODMAN SEELY 44
Distinction between Duchenne and other muscular dystrophies by ribosomal protein synthesis. VICTOR IONASESCU 49
Thalassaemia in northern Liberia. A survey in the Mount Nimba area. M. C. WILLCOX 55
Estimation of the age at onset of Huntington's disease from factors associated with the affected parent. C. J. BRACKENRIDGE and BETTY TELTSCHER 64
The occurrence of gonadal dysgenesis in association with monozygotic twinning. LAURENCE KARP, J. I. BRYANT, GEORGE TAGATZ, ELOISE GIBLETT, and PHILIP J. FIALKOW 70
A family study of coeliac disease. T. J. DAVID and A. B. AJDUKIEWICZ 79
Haemoglobin Lepore Boston and elliptocytosis in a family of Indonesian-German ancestry. L. N. WENT, W. W. DE JONG, and S. E. BOS 83
Aglossia-adactylia syndrome. N. C. NEVIN, D. BURROWS, GRACE ALLEN, and D. C. KERNOHAN 89
A family with apparently sex-linked optic atrophy. L. N. WENT, E. C. DE VRIES-DE MOL, and H. J. VÖLKER-DIEBEN 94
Case reports:
Deletion of the short arm of chromosome No. 10. M. H. K. SHOKEIR, M. RAY, J. L. HAMERTON, F. BAUDER, and H. O'BRIEN 99
Trisomy 13 and Rubinstein–Taybi syndrome. FE PALO GARCIA, LILLIAN Y. F. HSU, HOWARD FOX, and DONALD GRIBETZ 104
Partial 12p deletion: a cause for a mental retardation, multiple congenital abnormality syndrome. NORMA C. MAGNELLI and EEVA THERMAN 105
Prenatal diagnosis of a neural tube defect: Meckel syndrome. MARY J. SELLER 109
A case of hyalinosis cutis et mucosae (lipoid proteinosis of Urbach and Wiethe) with common ancestors in four remote generations. RICHARD C. JUBERG, PAUL R. WINDER, and LESLIE L. TURK .. 110
Neonatal testicular torsion in two brothers. E. E. CASTILLA, R. SOD, O. ANZORENA, and J. TEXIDO .. 112
Correspondence 114
Book reviews 116
SI Units: a table of recommended units for some biochemical and haematological tests 118

No. 2. *JUNE* 1975

The mechanism of genetic predisposition in congenital dislocation of the hip. A. CZEIZEL, G. TUSNÁDY, G. VACZÓ, and T. VIZKELETY 121
Two family studies on congenital dislocation of the hip after early orthopaedic screening in Hungary. A. CZEIZEL, J. SZANTPÉTERY, G. TUSNÁDY, and T. VIZKELETY 125
The detection of carriers of benign (Becker-type) X-linked muscular dystrophy. ROSALIND SKINNER, ALAN E. H. EMERY, ALAN J. B. ANDERSON, and CHRISTOPHER FOXALL 131
Amniotic fluid macrophages and the antenatal diagnosis of anencephaly and spina bifida. GRANT R. SUTHERLAND, D. J. H. BROCK, and J. B. SCRIMGEOUR 135
Review article: Alpha-feto-protein during development and in disease. ANNA ADINOLFI, M. ADINOLFI, and M. H. LESSOF 138
Population studies on Gilbert's syndrome. D. OWENS and J. EVANS 152
Carbohydrate metabolism in dystrophia myotonica. A. G. CUDWORTH and B. A. WALKER 157
Genetical components of physilogical tremor. P. J. TYRER and JUDITH KASRIEL 162
Homozygous β thalassaemia in Liberia. M. C. WILLCOX, D. J. WEATHERALL, and J. B. CLEGG 165
Review article: Cell membrane receptors for serological reagents. G. W. G. BIRD 174
Dermatoglyphic findings in 54 triple-X females and a review of some general principles applying to the soles in sex chromosome aneuploidy. P. SALDAÑA-GARCIA 185
Trisomy 22. Two new cases and delineation of the phenotype. VICTOR B. PENCHASZADEH and ROBERTO COCO 193

Short communication: Familial trisomy 7 mosaicism. LAWRENCE E. DE BAULT and KATHERINE A. HALMI .. 200
Case reports:
A patient with congenital anomalies and a deletion of the long arm of chromosome 4[46,XY,del(4)(q31)]. C. VAN KEMPEN .. 204
A mentally retarded child with a translocation involving chromosomes 12 and 19. T. W. J. HUSTINX, F. J. M. GABREËLS, F. J. RUTTEN, J. J. KORTEN, J. M. J. C. SCHERES, E. M. G. JOOSTEN, and T. H. J. GIJSBERS .. 207
Dicentric Y chromosome in mixed gonadal dysgenesis. ALBERTO HAYEK and EMILIO YUNIS .. 210
Book reviews .. 213

No. 3. *SEPTEMBER* 1975

Attitudes of patients and their relatives to Huntington's disease. ROBERT STERN and ROSWELL ELDRIDGE .. 217
Variability of acid hydrolase activities in cultured skin fibroblasts and amniotic fluid cells. ELISABETH YOUNG, P. WILLCOX, A. E. WHITFIELD, and A. D. PATRICK .. 224
Review article: Transplacental passage of blood cells. JIM SCHRÖDER .. 230
Development of dermal ridges in the fetus. M. OKAJIMA .. 243
Specific chromosome aberrations in ataxia telangiectasia. JENNIFER M. OXFORD, D. G. HARNDEN, JENNIFER M. PARRINGTON, and JOY D. A. DELHANTY .. 251
Alpha$_1$-antitrypsin phenotypes in sex chromosome mosaicism. F. KUEPPERS, P. O'BRIEN, E. PASSARGE, and H. W. RÜDIGER .. 263
Identification of C trisomies in human abortuses. JOËLLE BOUÉ, ANDRÉ BOUÉ, CHRISTIANE DELUCHAT, NICOLE PERRAUDIN, and FRANCINE YVERT .. 265
Homozygous haemoglobin D Punjab. CONSTANTINA POLITIS-TSEGOS, PAMELA KYNOCH, A. LANG, H. LEHMANN, P. A. LORKIN, REGINA STATHOPOULOU, and GRETA WAKEFIELD .. 269
Haemoglobin Lepore in Cyprus. Z. ZACHARIADIS, P. E. NUTE, and G. STAMATOYANNOPOULOS .. 275
Congenital vertebral anomalies: aetiology and relationship to spina bifida cystica. RUTH WYNNE-DAVIES .. 280
Ocular colobomata, cardiac defect, and other anomalies: a study of seven cases including two sibs. C. K. HO, R. L. KAUFMAN, and S. M. PODOS .. 289
Short communications:
Haemoglobin Hasharon in a north Italian community. R. ALBERTI, G. M. MARIUZZI, M. MARINUCCI, E. BRUNI, and L. TENTORI .. 294
A new case of haemoglobin Bucuresti in a Cuban family: further functional studies. B. COLOMBO, M. P. BENITEZ, L. BERNINI, J. ELION, H. WAJCMAN, and D. LABIE .. 297
Case reports:
Klinefelter's syndrome associated with a D/D translocation. M. SPARAGANA and G. F. SMITH .. 299
Partial 9 trisomy by 3:1 segregation of balanced maternal translocation (7q+;9q−). V. B. PENCHASZADEH and R. COCO .. 301
Pseudohermaphroditism with clinical features of trisomy 18 in an infant trisomic for parts of chromosomes 16 and 18: 47,XY,der(18),t(16;18)(p12;q11)mat. L. M. STERN and A. R. MURCH .. 305
A syndrome of hypohidrotic ectodermal dysplasia with normal teeth, peculiar facies, pigmentary disturbances, psychmotor and growth retardation, bilateral nuclear cataract, and other signs. N. FREIRE-MAIA, V. A. FORTES, L. C. PEREIRA, JOHN M. OPITZ, F. A. MARÇALLO, and I. J. CAVALLI .. 308
A case of partial (9p) trisomy in a family with a balanced translocation 46,XX,t(1p+9q−). M. K. MASON, D. A. SPENCER, and ALLISON RUTTER .. 310
Book reviews .. 315

No. 4. *DECEMBER* 1975

Review article: Genetic factors in amyloidosis. P. K. THOMAS .. 317
Heterozygote detection in phenylketonuria. Measurement of discriminatory ability and interpretation of the phenylalanine loading test by determination of the heterozygote likelihood ratio. A. WESTWOOD and D. N. RAINE .. 327
Hirschsprung's disease associated with congenital heart malformation, broad big toes, and ulnar polydactyly in sibs: a case for fetoscopy. K. M. LAURENCE, R. PROSSER, I. ROCKER, J. F. PEARSON, and C. RICHARDS .. 334
Dyskeratosis congenita: clinical features and genetic aspects. Report of a family and review of the literature. CHINTANA SIRINAVIN and ARTHUR A. TROWBRIDGE .. 339
Polydactyly and brachymetapody in two English families. SARAH B. HOLT .. 355
X-linked mental retardation associated with macro-orchidism. GILLIAN TURNER, C. EASTMAN, J. CASEY, A. MCLEAY, P. PROCOPIS, and the late B. TURNER .. 367
Annotation: Genetics of the complement system. PETER LACHMANN .. 372

Differences in human X isochromosomes. J. H. PRIEST, R. D. BLACKSTON, K.-S. AU, and S. L. RAY .. 378
46,X Turner's syndrome in monozygotic twin sisters. G. PESCIA, P. E. FERRIER, D. WYSS-HUTIN, and D. KLEIN 390
The Stickler syndrome presenting as a dominantly inherited cleft palate and blindness. JUDITH G. HALL and HENRY HERROD 397
Distal brachyphalangy of the thumb in mental retardation. MANUEL M. VILLAVERDE and JACYNTHO A. DA SILVA 401
Annotation: The search for relevant cell culture research in cystic fibrosis: one researcher's opinion. B. SHANNON DANES 405
Short communication: A family with an inherited translocation involving the No. 4/No. 21 chromosomes. JUDITH M. DARMADY and MARINA SEABRIGHT 408
Case reports:
Trisomy of the short arm of chromosome 10. YASUO NAKAGOME and HIDEO KOBAYASHI 412
Stub thumbs. A. B. DAVIES 414
Autosomal recessive oculopharyngeal muscular dystrophy. K. FRIED, A. ARLOZOROV, and R. SPIRA 416
Partial trisomy for the long arms of chromosome No. 5 due to insertion and further 'aneusomie de recombinaison'. P. JALBERT, H. JALBERT, B. SELE, C. MOURIQUAND, J. MALKA, J. BOUCHARLAT, and H. PISON 418
Bloom's syndrome: a probable new case with cytogenetic findings. C. A. BOURGEOIS, M. H. CALVERLEY, L. FORMAN, and P. E. POLANI 423
Trisomy 4q32→4qter due to a maternal 4/21 translocation. CARLO BACCICHETTI, ROMANO TENCONI, FRANCA ANGLANI, and FRANCO ZACCHELLO 425
Human Cytogenetic Registries 428
Correspondence 429
Book reviews 431
Announcement 432

SUBJECT INDEX TO VOLUME 12

Abnormalities, congenital, and deletion of long arm of chromosome 4 [46,XY,del(4)(q31)]: case report, 204
Abortuses, human, identification of C trisomies, 265
Acid hydrolase activities, variability in cultured skin fibroblasts and amniotic fluid cells, 224
Aglossia-adactylia syndrome, two male patients, 89
Alpha$_1$-antitrypsin phenotypes in sex chromosome mosaicism, 263
Alpha-feto-protein during development and in disease: review article, 138
Amniotic fluid cells, variability of acid hydrolase activities, 224
  macrophages, and antenatal diagnosis of anencephaly and spina bifida, 135
Amyloidosis, genetic factors: review article, 317
Anencephaly and spina bifida, amniotic fluid macrophages and antenatal diagnosis, 135
ANNOTATIONS: Genetics of the complement system, 372
  The search for relevant cell culture in cystic fibrosis: one researcher's opinion, 405
Antitrypsin, alpha$_1$-, phenotypes, in sex chromosome mosaicism, 263
Ataxia telangiectasia, specific chromosome aberrations, 251

Birth defects, clinical delineation, 1975 Conference, 1–5 June 1975, University of Kansas Medical School/National Foundation—March of Dimes, announcement, 54
Blindness, and dominantly inherited cleft palate, case of Stickler syndrome, 397
Blood cells, transplacental passage: review article, 230
Bloom's syndrome, a probable new case with cytogenetic findings: case report, 423

Brachymetapody and polydactyly, in two English families, 355
Brachyphalangy, distal, thumb, in mental retardation, 401

Carbohydrate metabolism in dystrophia myotonica, 157
Cardiac defect, ocular colobomata, and other anomalies, seven cases including two sibs, 289
Cell membrane receptors for serological reagents: review article, 174
Chromosome, abnormal, general, in ataxia telangiectasia, 251
  dicentric Y, in mixed gonadal dysgenesis: case report, 210
  duplications, X, differences, proposed classification, 378
  mosaicism, alpha$_1$-antitrypsin phenotypes, 263
    maternal XX/XXX, and Klinefelter's syndrome: correspondence, 114
  translocation, reciprocal, 3:1 disjunction: review article, 29
  X-linked mental retardation associated with macroorchidism, 367
  XXX females, soles in, dermatoglyphic findings 54, 185

Group A
1qh+, Giemsa banding, and linkage analysis, 44
Group B
deletion of long arm of chromosome 4 [46,XY,del(4)(q31)], and congenital anomalies: case report, 204
deletion of short arm: case report, 99
translocation, family inheriting No. 4/No. 21: short communication, 408
translocation, 4q32→4qter trisomy due to a maternal 4/21 translocation: case report, 422
trisomy partial, long arms, due to insertion and further 'aneusomie de recombinaison': case report, 418
4q32→4qter due to a maternal 4/21 translocation: case report, 425
Group C
partial 12p deletion, cause for mental retardation, multiple congenital abnormality syndrome: case report, 105
translocation involving 12 and 19 with mental retardation: case report, 207
trisomy, identification in human abortuses, 265
7 mosaicism, familial: short communication, 200
partial (9p) with balanced translocation 46,XX,t(1p+9q−): case report, 310
short arm of no. 10: case report, 410
Group D
in ataxia telangiectasia, 251
translocation D/D, associated with Klinefelter's syndrome: case report, 299
trisomy and Rubinstein–Taybi syndrome: case report, 104
Group E
trisomy 47,XY,der(18),t(16;18)(p12;q11)mat, associated with pseudohermaphroditism: case report, 305
Group F
translocation involving 12 and 19 with mental retardation: case report, 207
Group G
translocation, family inheriting No. 4/No. 21: short communications, 408
trisomy 22, two new cases and delination of phenotype, 193
Cholinesterase, plasma, mutation as source of abnormal gene: correspondence, 429
Cleft palate, dominantly inherited and blindness, case of Stickler syndrome, 397
Coeliac disease, family study, 79
Colobomata, ocular, cardiac defect, and other anomalies, seven cases including two sibs, 289
Complement system, genetics: annotation, 372
Congenital dislocation of the hip, after early orthopaedic screening in Hungary, two family studies, 125
mechanism of genetic predisposition, 121
CORRESPONDENCE:
Hirschsprung's disease and congenital deafness, 114
Klinefelter's syndrome and maternal XX/XXX mosaicism, 114
Mutation as the source of the abnormal gene for plasma cholinesterase, 429
Counselling, patient, first international congress, Amsterdam, 21–23 April 1976, announcement, 161
Cystic fibrosis, search for relevant cell culture: annotation, 405
Cytogenetic registries, human, recommendations, 428
Deafness, congenital, and Hirschsprung's disease: correspondence, 114
Deletion, Group B, short arm of No. 10: case report, 99
of long arm of chromosome 4[46,XY,del(4)(q31)], and congenital anomalies: case report, 204
partial, 12p, cause for mental retardation, multiple congenital abnormality syndrome: case report, 105
Dermal ridges, development, fetus, 243
Dermatoglyphic findings in 54 triple-X females, and review of soles in sex chromosome aneuploidy, 185
Diagnosis, antenatal, and amniotic fluid macrophages, of anencephaly and spina bifida, 135
prenatal, of neural tube defect, Meckel syndrome: case report, 109
Dicentric Y chromosome in mixed gonadal dysgenesis: case report, 210
Dr Heinz Karger Memorial Foundation, competition, announcement, 432
Dysgenesis, gonadal, occurrence in association with monozygotic twinning, 70
Dyskeratosis congenita: clinical features and genetic aspects, report of family and review of literature, 339
Dystonia, torsion, genetic study, 12
Dystrophia myotonica, carbohydrate metabolism, 157

Ectodermal dysplasia, hypohydrotic, with normal teeth, peculiar facies, pigmentary disturbances, psychomotor and growth retardation, bilateral nuclear cataract, and other signs: case report, 308
Elliptocytosis and haemoglobin Lepore Boston in a family of Indonesian–German ancestry, 83
'Engineering' the human genome, ethical and social questions, 15 and 16 May 1975, New York Academy of Sciences and the Institute of Society, Ethics and the Life Sciences: announcement, 54

Feto-protein, alpha, during development and in disease: review article, 138
Fetoscopy indicated after previous male infants with Hirschsprung's disease associated with broad big toes, congenital heart malformation and ulnar polydactyly, 334
Fibroblasts, skin, cultured, variability of acid hydrolase activities, 224

Gene, abnormal, mutation, source for plasma cholinesterase: correspondence, 429
Gilbert's syndrome, population studies, 152
Gonadal dysgenesis, mixed, with dicentric Y chromosome: case report, 210
occurrence in association with monozygotic twinning, 70

Haemoglobin Bucuresti β42(CD1)Phe→Leu in a Cuban family, new case, further functional studies: short communication, 297
Hasharon in a north Italian community: short communication, 294
D Punjab, homozygous, 269
Lepore Boston and elliptocytosis in family of Indonesian–German ancestry, 83
Greek Cypriot family in Cyprus, 275

Hip, congenital dislocation, after early orthopaedic screening, two family studies, 125
mechanism of genetic predisposition, 121
Hirschsprung's disease associated with congenital heart malformation, broad big toes, and ulnar polydactyly in sibs, case for fetoscopy, 334
and congenital deafness: correspondence, 114
Human cytogenetic registries, recommendations, 428
Huntington's disease, attitudes of patients and their relatives, 217
estimation of age of onset from factors associated with the affected parent, 64
Hyalinosis cutis et mucosae (lipoid proteinosis of Urbach and Wiethe) with common ancestors in four remote generations: case report, 110
Hydrolase, acid, variability of activities in cultured skin fibroblasts and amniotic fluid cells, 224

Isochromosomes, X, human, differences, proposed classification, 378

Klinefelter s syndrome associated with a D/D translocation: case report, 299
and maternal XX/XXX mosaicism: correspondence, 114

Lipoproteinosis (of Urbach and Wiethe), hyalinosis cutis et mucosae with common ancestors in four remote generations: case report, 110

Macro-orchidism, associated with X-linked mental retardation, 367
Meckel syndrome, neural tube defect, prenatal diagnosis: case report, 109
Mental retardation, associated with distal brachyphalangy of thumb, 401
with translocation involving chromosomes 12 and 19: case report, 207
X-linked, associated with macro-orchidism, 367
Mosaicism, alpha$_1$-antitrypsin phenotypes, 263
familial trisomy 7: short communication, 200
XX/XXX, maternal, and Klinefelter's syndrome: correspondence, 114
Muscular dystrophy, benign (Becker-type) X-linked, detection of carriers, 131
distinction between Duchenne and others by ribosomal protein synthesis, 49
oculopharyngeal, autosomal recessive: case report, 416
Mutation as source of abnormal gene for plasma cholinesterase: correspondence, 429

Neural tube defect, Meckel syndrome, prenatal diagnosis: case report, 109

Ocular colobomata, cardiac defect, and other anomalies, seven cases including two sibs, 289
Oculopharyngeal muscular dystrophy, autosomal recessive: case report, 416
Oesophageal atresia, South West of England, 1
Optic atrophy, apparently sex-linked, in one family, 94

Paralysis, periodic, normo-hyperkalaemic, clinical and ultrastructural observations in a kindred with, 20
Patient counselling, first international congress, Amsterdam, 21–23 April 1976: announcement, 161
Periodic paralysis, normo-hyperkalaemic, clinical and ultrastructural observations in a kindred with, 20
Phenylketonuria, heterozygote detection, 327
Placenta, transplacental passage of blood cells: review article, 230
Polydactyly and brachymetapody in two English families, 355
Predisposition, genetic, mechanism in congenital dislocation of the hip, 121
Pregnancy, pathology, symposium, Royal College of Pathologists, London, 12 and 13 February 1976: announcement, 354
Pseudohermaphroditism with clinical features of trisomy 18 in an infant trisomic for parts of chromosomes 16 and 18: 47,XY,der(18), t(16;18)(p12;q11)mat: case report, 305

Receptors, cell membrane, for serological reagents: review article, 174
REVIEW ARTICLES:
Alpha-feto-protein during development and in disease, 138
Cell membrane receptors for serological reagents, 174
Genetic factors in amyloidosis, 317
Reciprocal translocations in man 3:1 meiotic disjunction resulting in 47- or 45-chromosome offspring, 29
